Pet Food & Supplement Fact Sheet

Please refer to the administration information printed on or enclosed on the packaging

Product: Pet Food & Supplements

Usage: These products are used to feed animals and provide them with extra nutrients.

Materials:

Pet food: meat and/or fish products, grains, vegetables, vitamins and minerals

Supplements: vitamins, minerals, amino acids, herbal extracts

Dangers:

Risk of swallowing: Small parts or tablets could be swallowed, especially in small pets.

Allergic reactions: Some pets might be allergic to certain ingredients.

Overdose: Excessive intake of supplements can be harmful to health.

Chemical hazard: Some products may contain preservatives or chemical additives that can cause reactions in sensitive pets.

Safety Measures:

Handling: Use the products according to the manufacturer's instructions. Be sure to follow the correct dosage for each animal.

Storage: Store products in a dry, cool place, away from direct sunlight and out of the reach of children and pets.

Monitoring: Monitor your pet for possible side effects or allergic reactions after administering supplements.

Disposal: Dispose of expired or no longer needed products in accordance with local regulations.

First aid measures:

Allergic reactions: If you have any signs of an allergic reaction, such as itching, swelling, or difficulty breathing, consult a veterinarian immediately.

Swallowing unsuitable parts: Consult a veterinarian immediately if your pet has swallowed parts that are not part of the diet.

Overdose: If overdose is suspected, contact a veterinarian immediately and bring the product packaging.
