

Fly Traps and Replacement Containers

400408 Bremsenfalle TAON-X

Safety Data Sheet for Fly Traps and Replacement Containers

Product: Fly traps and spare containers

Usage: These products are used to catch and eliminate flies and other flying insects. Replacement containers are used to reuse the fly traps.

Materials:

Fly traps: plastic, glue, fragrances, possibly toxic agents (depending on the type of trap)

Replacement containers: plastic, metal, seals, adhesive residues

Chemical ingredients: insecticides, attractants

Dangers:

Chemical hazard: Some fly traps contain chemicals that can be harmful to health. Direct contact can cause skin and eye irritation.

Choking hazard: Small parts can be swallowed.

Environmental hazard: Chemical agents can be harmful to the environment, especially aquatic life.

Mechanical hazard: Improper use or damaged containers can cause injury.

Safety Measures:

Handling: Use the fly traps and spare containers according to the manufacturer's instructions. Avoid direct contact with the adhesives or chemicals.

Storage: Store the products in a dry, cool place, away from children and pets.

Disposal: Dispose of used fly traps and replacement containers in accordance with local hazardous waste regulations.

Inspection: Regularly inspect the containers for wear or damage and replace defective parts immediately.

First aid measures:

Skin contact: In case of contact with glue or chemicals, immediately wash the affected area thoroughly with soap and water. If irritation persists, consult a doctor.

Eye contact: In case of contact with eyes, rinse immediately and thoroughly with water and consult a doctor if discomfort persists.

Ingestion: If swallowed, seek medical attention immediately.
